## PROFESSIONAL SUMMARY

Senior Android Engineer delivering large-scale, customer-facing mobile applications in complex, regulated environments. Expertise in Kotlin, modern Android architecture, performance optimisation, and observability, with a proven record of cross-team impact, technical leadership, and mentoring engineers to drive sustainable delivery outcomes.

## EMPLOYMENT

### ANZ

*Senior Mobile Engineer (Android)*

Aug 2023 – Present

*Melbourne, VIC*

- Led and contributed to delivery of major customer-facing Android features across multiple product domains.
- Acted as Android platform lead, setting technical direction, managing delivery risks, and supporting cross-team execution.
- Designed and implemented a shared Android telemetry and observability solution enabling SLOs across teams.
- Reduced significant Android technical debt by modernising legacy implementations and domain models.
- Drove platform improvements across project modularisation, performance optimisation, and legacy migrations.
- Mentored graduate engineers and supported onboarding across teams.

### Redbubble

*Mobile Engineer (Android)*

Feb 2022 – May 2023

*Melbourne, VIC*

- Developed and maintained production Android features using Kotlin and Jetpack Compose within a modern architecture.
- Led technical initiatives and coordinated testing and release processes.
- Collaborated closely with product managers and designers in a cross-functional environment.
- Contributed to CI/CD pipelines, analytics, and application stability improvements.

### Posmosis

*Systems Engineer*

Oct 2010 – Aug 2019

*Collingwood, VIC*

- Development and implementation of tailored software solutions.
- Balancing a high volume of simple and complex tasks in priority order.
- Implementation and maintenance of customer cloud infrastructure.
- Creation and maintenance of knowledge base documentation.
- Database cleansing and restructuring.

## EDUCATION

### Swinburne University of Technology

*Bachelor of Computer Science · Diploma of Software Development · Cert IV IT*

Mar 2018 – Dec 2021

*Hawthorn, VIC*
